

Pictures to Send Home

When Lewis and Clark were alive there were no cameras. To help people at home, they sometimes drew pictures of the animals and plants they saw. Can you match their drawing to the animal they were describing?

Bison

Vine Maple

Flounder

Gull

Bighorn Sheep

Now it is your turn! Our exhibit hall has many animals that live in the area explored by Lewis and Clark. Try drawing one on the back of this page. See if your friends at home can guess what it is!
